

FOUR

KANSAS TWISTER HITS GREAT BEND; 12 KILLED AND MANY INJURED

More Than Half Million Dollars' Worth of Property Destroyed; Santa Fe Passenger Train Barely Escapes.

EVERY AVAILABLE MAN IS DOING RESCUE WORK

Several Thousand Sheep Are Caught Up by Cyclone, Hurling Into the Air and Lifeless Bodies Strew Prairie.

Great Bend, Kan., Nov. 10.—Twelve persons were killed and more than 100 injured, many of them seriously, in a cyclone which swept through the residence section of Great Bend at 7:30 o'clock tonight. The property loss is estimated at a half million dollars.

The city water plant, a laundry, three flouring mills, the Santa Fe depot and fifty residences were demolished. Santa Fe passenger train No. 5 narrowly escaped the path of the twister, which swept through the southern part of the city.

Several thousand sheep were killed, the animals being hurled into the air as the cyclone struck their feeding pens. The city tonight is in total darkness and without water supply.

Every available man tonight is tearing through the debris in an effort to rescue many yet imprisoned.

Great damage was done in the country southwest of here, from which direction the cyclone approached, without warning.

Many of those injured were caught beneath their homes which were blown up from their foundations and crashed into a mass of debris.

At a late hour tonight a list of those killed and injured was not available, due to the confusion.

Fire Adds to Horror.

Fire broke out in several of the residence blocks, and as the city was without fire protection they burned to the ground.

Walnut Creek, Moses Brothers and the Dulac companies were the three flouring mills destroyed. In these structures several men were working night shifts and were killed.

A long string of freight cars were overturned by the cyclone when the Santa Fe depot crashed in.

A path three-quarters of a mile long and several blocks in width was cut through the residence district. Here the heaviest toll of life was exacted.

The people of the town immediately responded as voluntary rescuers and the work of searching the ruins progressed in a steady downpour of rain that followed the cyclone.

More than forty of the injured tonight were being attended in St. Rose's hospital. Physicians from Great Bend and surrounding towns have been summoned.

CYCLONE STRIKES TOWN NEAR SIOUX FALLS, S. D.

Sioux Falls, S. D., Nov. 10.—A tornado struck Hartford, S. D., tonight, wrecked the electric light plant and injured four persons, none seriously. The tornado passed over the town from southwest to northeast, changed its course and swept the town a second time and then, with diminished force, struck Sioux Falls, where much minor damage was done. A heavy rain followed the wind.

RAIN ALONE PREVENTED BURNING OF WHOLE CITY

Hatchison, Kan., Nov. 10.—Star telephone reports from the vicinity of Great Bend say a school house, lying in the path of the storm, was demolished. Fires broke out in many homes following the first ravages of the storm but the heavy deluge of rain which followed effectively extinguished them before town-wide conflagration could spread.

At Great Bend, south of Great Bend, four and one-half inches of rain is reported to have fallen. Larned is said to have suffered some damage, although definite reports are not available.

TORNADO SWEEP OVER WIDE AREA OF WEST

Kansas City, Nov. 10.—A tornado swept over parts of Kansas, Nebraska and South Dakota tonight, wrecking many buildings and killing a number of persons. The extent of the damage and loss of life could not be ascertained definitely tonight, but the storm tore down wires and shut off communication for several hours. No reports were received from the rural regions and only a few from small towns in the path of the wind storm. A message to the Missouri Pacific railroad said that the tornado swept a path sixteen miles wide at some places.

Among the towns in which buildings were reported destroyed were Clinton, Holmston, Larned, Kansas, and Hartford, S. D.

One brief report from Great Bend said that half of the houses in the city were demolished and that the Santa Fe railroad station was razed. Three flouring mills and a number of grain elevators were in the path of the storm but their fate was not reported. It was reported that fires broke out in the debris of crushed homes, but a heavy rain quenched the flames before they spread to any extent. At Great Bend, south of Great Bend, more than four inches of rain fell.

An Atchison, Topeka & Santa Fe train, due at Great Bend about 10 o'clock tonight, was held up by the storm, and was held from for several hours, and four were attributed to the train and its passengers.

FRENCH STEAMER IS SUNK BY SUBMARINE

Paris, Nov. 10.—The French steamer *Fraser*, owned by the Societe Generale Des Transports Maritimes A Vapeur de Marseilles, according to information reaching here tonight, was torpedoed by a submarine in the Mediterranean on Sunday last. Of the crew of seventy-three, four men were wounded. All the crew were rescued, being landed at Cagliari in the southern coast of the island of Sardinia.

A dispatch from Cagliari to the *Gazzetta Ufficiale*, which was forwarded here from Rome, gave the impression at first that the vessel destroyed was the 2,000-ton steamer *Fraser* of the Compagnie Generale Trans-Atlantique which was taken out of the passenger service early in the war and has been since then utilized by the French government.

Later advices which were received, reported the steamer as belonging to the Marseilles company. This steamer of late has been plying between France and Africa and other Mediterranean ports.

300 GUESTS AT BANQUET GIVEN TO NEW BISHOP

El Paso, Tex., Nov. 10.—More than 300 guests, including representatives of the city and county governments, members of the judiciary, federal officials and representative citizens of El Paso tonight attended the banquet given by the Knights of Columbus in honor of Rt. Rev. A. J. Schuler, bishop of the diocese of El Paso of the Roman Catholic church, who arrived this morning from Denver and tomorrow morning will be installed into his holy office with elaborate ceremonies at the cathedral of the Immaculate Conception. The bishop was accompanied to the city by Archbishop J. J. Phelan, of Santa Fe. Bishop William Shaw, of San Antonio, Bishop Francisco Urrutia, of El Paso, Mexico, and a score or more of the clergy of the southwest.

SALVAGE OF EMDEN AGAIN IN QUESTION

(Associated Press Correspondence.) Melbourne, Australia, Oct. 10.—The salvaging of the wreck of the German cruiser *Emden* which was beached upon Keeling island of the Cocos group in the Indian ocean after defeat by the Australian cruiser *Sydney* last November is again in question. The minister for the navy has given the *Sydney* firm, which some months ago made the lowest bid for the removal of the bulk, until October 6 in which to decide whether it will accept the government's conditions. The firm offered \$20,000 for the right to take possession of what remains of the *Emden* and bring it to Australia. It also wanted permission to retain the vessel for eighteen months in order that she might be placed on exhibition throughout the world. The navy department would not agree to this proposal, for complications, but if the firm were successful in bringing the vessel to Australia, the federal government would pay the wreckers a fair amount for their work and if they were dissatisfied with the amount offered the matter would be settled by arbitration.

WAR PRISONERS LOOKED AFTER BY GERMAN SOCIETY

(Associated Press Correspondence.) Frankfurt-on-Main, Germany, Oct. 25.—The Aid for German Prisoners of War organization with headquarters here and in Hamburg, to which every other similar organization in Germany is subordinate, has since its formation last year, definitely and accurately determined the fate of thousands of German soldiers. The association here employs some seventy-five paid workers and countless volunteers and has reduced the finding of missing soldiers almost to an exact science.

Just as the war ministry in Berlin maintains an elaborate and now enormous card catalogue of the prisoners of war now interned in Germany, so the association keeps card catalogues of Germans who have been made prisoners, and those reported as missing. It issues minute instructions showing relatives how they can get into touch with members of their families who are imprisoned, how they can send them money and packages, and keeps them informed as to the prisoners' state of health and general condition.

Cornell University's Gridiron Hero

SHIVERICK

The great Charlie Barrett, Cornell's quarterback and captain, has received so much publicity that some folks last night of a few other halfbacks in the Cornell team, and it was only when Barrett was knocked out of the game that the Cornell fans after seeing a touchdown that another man had a chance. That man was Shiverick, the husky left halfback, who played a remarkable game against Harvard. After Barrett was carried off the field it developed upon Shiverick to do the punting for the Cornell team and right well did he do it, gaining about ten yards on almost every exchange of punts with the great Eddie Mahan, Harvard's star back.

"Shiverick" is one of the best halfbacks in the business and ranks with any man in the game position in the country.

AGGIES' TITLE FOR NEW MEXICO IS STILL CLEAR

Normals Defeated Second String Team, States Coach Russell; College Men Here on Way to Roswell.

Title of the New Mexico Aggies to the state championship is still clear. Coach Russell, of the state college, stated last night. He says here with Dr. George Ladd, president of the state college, accompanying the Aggie football team to Roswell, where they will play the New Mexico Military Institute tomorrow.

The Aggies held the honors last year and so far this season the first team has not been beaten except once, and that doesn't count, he said. The El Paso high school defeated the Aggies first line but that was early in the season and since then the Aggies have wiped out the early loss by dominating the Passaic high, 26 to 0.

About that game with the Normals at Silver City, Coach Russell said that not a member of the first squad of Aggies was in the team that opposed the Normals. If the Normals expect to play the Aggies first battle squad, they will have to beat the other contenders first, he said.

The agricultural college has the best balanced team that Coach Russell has seen in this section of the country in the several years that he has been in New Mexico, he stated. It is an all-around team and while there are some high class men in the line they stand much above the others.

The Aggie have a heavy line and a fast backfield.

In Shaler Ladd, son of Dr. Ladd, the team has a good center and place kicker. It was Ladd's son, by the way, they won for the Aggies from Arizona. The backfield consists of Joe Quisenberry, who has been picked for the all-New Mexico team for three years, the former for three years as center and two years for his present position. While the guards are new they are good. One weighs 190 and the other only ten pounds less.

The Aggies will play the University of New Mexico Thanksgiving day at Las Cruces. This is the last game scheduled for the Aggies for the season.

100 ROOMS EXCAVATED IN PREHISTORIC RUIN

(SPECIAL DISPATCH TO MORNING JOURNAL.) Santa Fe, Nov. 10.—N. G. S. today completed the excavations of the prehistoric Tanos ruin on the Arroyo Hondo, five miles south of Santa Fe. He uncovered two rooms and while some of the material recovered is very interesting it is small in quantity. Before returning to New York he expects to excavate the ruin at Piedras Negras on the old Santa Fe trail, eight miles south of Santa Fe.

EACH LEAGUE TO FIX OWN SALARY LIMIT AT FRISCO

President Ebbetts of Brooklyn Club Advises Against a Standard Salary Maximum for All Leagues.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) San Francisco, Nov. 10.—Representatives of each league in the National Association of Professional Baseball Leagues in convention here were instructed today to report late today what salary limits would be acceptable to their organizations. This action followed a long executive session in which the policy of retrenchment was declared to be imperative.

Charles Ebbetts, president of the Brooklyn Nationals, according to J. H. Farrell, secretary of the association, who issued an official report of the meeting, advised the minor leagues not to establish a standard salary limit for all leagues.

"Baseball can be saved only by sensible regulation of salaries," Farrell said. "It would be foolhardy for this convention to attempt to fix a general salary limit for all leagues. Each league should set its own figures to which all clubs should adhere rigidly."

Among other questions, there were discussed at the meeting a proposal to establish for each league, uniform training dates, player limits during the playing season, maximum salaries and a limit on the number of players held in reserve during the winter.

The election of officers set for today was deferred. It probably will be held tonight or tomorrow.

SALARY REDUCTIONS MATTER MAY BE SETTLED TOMORROW

San Francisco, Nov. 10.—The matter of salary reductions, the subject that occupied much of the time at today's session of the National Association of Professional Baseball Leagues, may be settled Friday when the convention reconvenes. In the interim, according to instructions approved by the convention, each classification will hold separate meetings and prepare for Friday's session, an outline of their ideas on the salary question.

The committee on credentials headed by W. A. Rourke of Omaha, as the representative of the Western league, this is the first time in eleven years it was pointed out that N. L. "Tip" O'Neill has not filled that position. O'Neill was president of the league but its members voted him out in September. O'Neill, they said, declined to have a contract by which he retained the presidency until December 14.

GUERNSEY KICKS TWO GOALS FROM 45-YARD LINE IN SCRIMMAGE

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) New Haven, Conn., Nov. 10.—Two field goals from the 45-yard line by Otis Guernsey were features of the practice of the Yale football team in its first scrimmage of the week today. Guernsey has been out of the game for several weeks on account of injuries but will play football against Princeton on Saturday in place of Sevier, who has a broken thumb. Two years ago Guernsey scored field goals against both Princeton and Harvard and his presence in the lineup is encouraging to Eli supporters.

CORHAN HERE TO STAY UNTIL THE TRAINING SEASON

Roy Corhan, accompanied by Mrs. Corhan, arrived late yesterday afternoon on delayed Santa Fe train No. 2. They will spend the winter here and next spring Corhan will leave for the St. Louis Cardinals' training camp in the south. He was purchased toward the close of the last season by the St. Louis club.

Corhan has been with the San Francisco club of the Pacific Coast league for the last two seasons, playing at shortstop. During the illness of the St. Paul manager last summer he acted as pilot of the team and handled it so skillfully as to draw praise from the St. Paul supporters.

This will be Corhan's second ascent to the "Big Show." He played with the White Sox until a "bean" ball found his head. Corhan's head-piece is not concrete or ivory and the blow injured him, causing him to lose some of his prowess with the stick. Hence his retirement to the Coast league. Corhan is said to have recovered all his old-time ability and is expected to stay with the Cardinals.

Beware of Cheap Substitutes. In these days of keen competition it is important that the public should get that Chamberlain's Cough Remedy and not take substitutes sold for the sake of extra profit. Chamberlain's Cough Remedy has stood the test and been approved for more than forty years. Obtainable everywhere.

TOO LATE TO CLASSIFY. FOR RENT—Two large, furnished rooms, electric lights, gas, hot and cold water, big porch. \$12. Zeigler, 714 East Coal.

I WANT to make the acquaintance of a man or woman who can invest from \$500 to \$1,000 in a clean, profitable, permanent business which has no competition, to be established in Albuquerque. Address C. W. Bray, P. O. Box 692, Albuquerque.

Notes of Interest From State Museum

(SPECIAL DISPATCH TO MORNING JOURNAL.) Santa Fe, Nov. 10.—What promises to be a new industry for the San Ildefonso Indians, were exemplified today in the museum to Juan Gonzalez, who brought in a number of tumors for indirect lighting. In appearance they are inverted Indian dolls, decorated with characteristic Indian symbols in red and black. Thousands of leather are used to suspend them from the ceiling, the lights being placed inside of the bowl, the inner surface of which is smooth and of light color so as to reflect the light. The first consignment was shipped today to the Minnesota Hospital of the Colorado Fuel and Iron company at Pueblo, Colo., where the convalescent room has been furnished with Indian blankets and Indian furniture. The order came from Dr. H. W. Garwin, the head surgeon, who is a member of the managing committee of the School of American Archaeology.

The following registered at the museum: James Brown, Albuquerque; H. H. Davis, Ottawa, Iowa; L. F. Carter, Danville, Mo.; Mrs. E. H. Denton, Arkansas City, Kan.; L. R. Grubbs, Jr., Washington, D. C.; Mrs. Elsie Nohl, Elton, Wis.; Al E. Wheeler, Denver; Antonio Acuna, Denver; M. P. O'Laughlin, Albuquerque; M. A. Dietrich, Denver; Roland C. Bell, Santa Fe, N. M.

NOTICE. I have purchased the accounts and business of the Albuquerque Coal Co., 492 North First street. All accounts due the above firm will be paid to me. All accounts against the firm will be paid by me. W. C. GOTT.
